

Game Design Internship

Arkadium, a leading game developer in NYC, is looking for an exceptional individual to join the Game Design team. The ideal candidate is a motivated, creative and dynamic person looking to gain industry experience. This intern position is tailored to someone who is exploring Game Design as a career and is looking for exposure to the various departments within an online gaming company in the process.

This job is located in the Flatiron district of New York City.

Job Description

Our Ideal Candidate:

- Has excellent communication, writing, and organizational skills
- Loves dissecting games as much as they love playing them
- Has designed games as a hobby or as part of a school project
- Has experience working with basic computer software programs including the MS Office Suite (Word, Excel, Powerpoint)
- Is comfortable working with design programs, including Photoshop and/or Flash
- Has an understanding of the internet and related technologies (i.e., HTML and Flash)
- Is confident and fun

Responsibilities:

- Learn the ins and outs of game design from Arkadium's experienced team of Game Designers, and sit in on game design meetings
- Work on creating new content for pre-existing games
- Assist in the design of both new and current games
- Familiarize yourself with how an online casual game is created from start to finish
- Gain a better knowledge and understanding of the Gaming Industry
- Participate in/help out with miscellaneous/ad-hoc tasks

How to Apply

To apply, please email your cover letter and resume to internships@arkadium.com with the subject line "Game Design Internship."

Please note that we get a ton of resumes. We encourage you to be creative if you want your cover-letter to stand out.
