

Game Development Internship

Arkadium, a leading game developer in NYC, is looking for an exceptional individual to join our team. The ideal candidate is a motivated, creative and dynamic person looking to gain industry experience.

This job is located in the Flatiron district of New York City.

Job Description

Our Ideal Candidate:

- Loves computer and online games
- Has experience with Flash and AS3
- Has a background in Object Oriented Programming
- Has an understanding of the internet and related technologies (i.e., HTML, JavaScript, servers)
- Has excellent communication and writing skills
- Is organized and can juggle multiple tasks

Responsibilities:

- Edit and re-skin existing Flash games
- Develop new tools to help game designers, artists, and programmers with their tasks
- Work on assigned programming tasks
- Participate in brainstorming sessions where we come up with ideas for the next hit games
- Learn from professionals with years of experience within the industry
- Gain a better knowledge and understanding of the Gaming Industry
- Participate in/help out with miscellaneous/ad-hoc tasks

How to Apply

To apply, please email your cover letter and resume to internships@arkadium.com with the subject line "Game Developer Internship."

Please note that we get a ton of resumes. We encourage you to be creative if you want your cover-letter to stand out.
